\$150 Non-Members

**ADA CERP**® | Continuing Education  
Recognition Program

The SWDS is an ADA CERP recognized provider approved by the MDA. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. The SWDS designates this activity for 3 CE credits.

**The OSHA Bloodborne Pathogen Standard**

requires employers who have employees with occupational exposure to blood and other potential infectious material provide training for those employees annually. In addition, for DANB Certified Dental Assistants, two hours of infection control and one hour of OSHA's Bloodborne Pathogens credits is required annually. This course covers both areas of required training. The OSHA standard contains fifteen elements that will be addressed in the training. The major exception is the standard does not require an annual review of the employer's exposure control plan. This portion of the requirement will need to occur in the participants' individual office setting. However, a discussion of the elements required in all plans will be included. The course will provide 3 hours of CE (2 hours IF & 1 hour BBP).

**Objectives:**

- Be aware of safety issues involved in dental care
- Be able to apply modern infection control principals
- Be knowledgeable about requirements of the OSHA Bloodborne Pathogens Standards
- Be able to critically analyze different methods for instrument decontamination

**Dr. Howard Shayne** graduated from Baylor College of Dentistry in 1989. He was a full-time instructor at Baylor for three years following the completion of a one year GPR at the Dallas VA Hospital. He has been in private practice with his wife, Dr. ML Shayne, for the past 29 years in Springfield. They own and operate Fox Grape Family Dentistry which is a general practice that caters to whole families—from children to grandparents—in a friendly and inviting atmosphere. Dr. Shayne is involved in many community organizations, including being a member of the Greene County Health Commission, a member of the Ronald McDonald Tooth Truck Board and is Past President and current board member of the Greater Springfield Dental Society.
